About.

We are a Swedish furniture brand that creates minimalist, functional and eye-catching products that should last longer than a lifetime. In close collaboration with carefully selected manufacturers and craftsmen, most of the production takes place in Sweden and the rest in Europe. Dedicated to maintaining a healthy production chain, we use wood from sustainable forestry, recycled metal wire, and leather from Scandinavian cattle, which is a by-product from the meat and dairy industry. Maze work with skilled Nordic designers who realize our values and transform them into shape and colour. We have loyally stuck to our values with a lot of heart, laughter and sometimes even tears.

For 20 years, Maze has worked in the same way with the same sustainable vision – not the easiest path, but for us the right one.

News.

Bill best sellers in new paint

Our best-selling hallway and hook series, Bill, now comes in two new colors: Cinnamon and Pigeon Blue. Available in Bill Horizontal, Bill Floor, and Bill XS, these elegant shades add a stylish touch to your space while keeping your essentials organized.

Certified

For over 20 years, sustainability has been at the core of our work, and now we’re proving it—42% of our product range is certified with Life Cycle Assessments (LCA) and Environmental Product Declarations (EPD). This milestone increases transparency, meets industry demands, and strengthens our commitment to a sustainable future. The results, compiled with expert support and third-party verified, provide reliable insights into our environmental impact, helping customers make informed, eco-conscious choices. With EU standards increasingly prioritizing environmental certifications, we’re leading the way and aiming to certify our entire range.

A phat-attack

Phatagoras is the bold, unapologetic sibling to Pythagoras—bigger, louder, and packed with attitude. With its 10mm thick metal design, it demands attention, whether as a single shelf or an entire system. Inspired by early 2000s hip-hop and modern chunkiness, it comes in Ink Black, Porcelain White, Silver, and Kalahari. Locked for the retail market until October 2025, available for contract now.

Reaching new heights

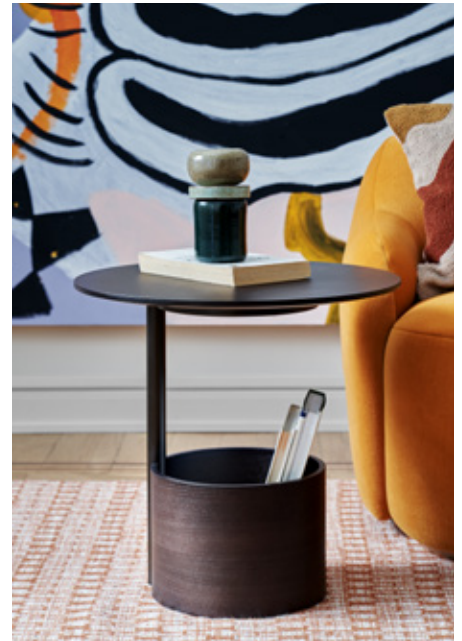

The Shoescraper – our tallest shoe shelf yet – takes storage to new heights, both literally and visually. With a staggering 70 cm height, it reshapes the hallway skyline while offering plenty of storage in a compact vertical design.

Together with the Uptown hat rack, Downtown shoe shelf, Midtown organizer and Lower East Seat, the Shoescraper forms a New York-like shoeline—oh, we meant skyline—combining function and style to make your hallway both practical and aesthetic.

The 'Product Design' category highlights products with excellent design quality and is the oldest of the three categories included in the competition. The Red Dot jury consists of around 50 members from 23 different nationalities, who identify and recognize design excellence every year.
